

ROAD SAFETY

# Traffic Cone Extension Bar

The Traffic Cone Extension Bar spans between two traffic cones or T-top bollards to create a hi-vis barrier rail. Telescopic from 135cm to 210cm, lightweight ABS with four reflective bands and rubber loops on each end.

| SPECIFICATION | DETAIL |
|---|---|
| Adjustable Length | **135cm to 210cm (telescopic)** |
| Material | **ABS Plastic** |
| Reflective Bands | **4 x 15cm hi-vis yellow** |
| End Fixings | **Rubber loops both ends** |
| Compatibility | **Standard traffic cones & T-top bollards** |
| Pack Options | **Sold individually or in cartons of 10** |

## KEY FEATURES

- Telescopic length adjusts from 135cm to 210cm to suit the gap between cones or bollards.
- Four 15cm hi-vis yellow reflective bands for clear delineation day and night.
- Durable yet lightweight ABS plastic that stands up to repeated site handling.
- Rubber loops on each end locate securely over the cone tip or bollard top.
- Compatible with standard traffic cones and T-top bollards.

## APPLICATIONS

Construction · Civil · Engineering · Government · Accessories
